SKILLS

- Javascript
- react
- TypeScript
- Docker
- Deploy jenkins and huawei cloud

WORK EXPERIENCE

APR 2025 - Present

Front end dev - Sense Info Tech Co., Ltd

- Build web applications using **React** and **JavaScript** and **TypeScript** based on SA specifications
- Develop a legal system for Islamic Bank of Thailand (iBank)
- Deploy via **Jenkins** and manage containers with **Portainer**
- Handle UAT deployments on **Huawei Cloud**
- Ensure code quality using **SonarQube**

MAY 2024 -APR 2025

Intern dev - Sense Info Tech Co., Ltd

Gained hands-on experience in React, JavaScript, and .NET, along with version control using Git. Worked with real project specifications for the first time, implementing basic UI features such as master pages and simple forms while developing an understanding of development workflows and team collaboration.

EDUCATION

2020-2024

KMUTNB

Bachelor of Applied Science (Applied Mathematics in Computer Science)
